Depending on our arrival time, we can spend today exploring the old town of Quito and the surrounding area. In the evening, one of our trip leaders will meet us at the hotel's lobby for a welcome briefing at 6pm. This is a time to ask any questions we may have regarding our upcoming adventure.

We then attend Luis' local workshop "Cruz Verde". Luis is a well known artisan whose family has prepared the local candy "Colaciones" for the last 100 years, keeping alive Quito's timeless tradition. We hike down the canyon alongside the Toachi River until we reach the road that will take us to Chugchilán, a small town located in the middle of the Quilotoa loop. Here we will find our accommodation for the evening, a quaint eco-house nestled in the countryside. We have some time to explore the village and meet the friendly locals before dinner.

We venture down into impressive narrows canyons, then climb up to the top of the crater rim, where we are rewarded with spectacular views of Quilotoa Lake. The majestic beauty of this place is arresting. We enjoy a very scenic picnic with views from the volcano, out across the surrounding rolling landscape, before hopping into our vehicle and transferring to our hacienda in the foothills of Chimborazo volcano.

On a clear day, the majestic peak of Chimborazo dominates the view for miles around. Once in this spectacular national park, we embark on a short but steep hike of around 1km to reach the snowline where the glacier begins. On the hike, we keep our eyes peeled for some of the animals that inhabit this volcanic climate; broad winged Andean condor, delicate hummingbirds and timid wild Vicuñas to name a few. Once extinct in Ecuador, Vicuñas were reintroduced into the wild and are now protected. It isn't hard to tell that this beautiful animal is related to alpacas and llamas. TRIP INFORMATION

DIFFICULTY

This trip is given a **challenging** rating because it has some fairly tough elements incorporated into it. Cotopaxi is the most accessible and therefore most popular peak to summit in Ecuador, however this is not to say its an easy ride. You will be walking on glacial terrain, crossing snow bridges and moving between crevasses which makes this a proper challenge! Sitting at 5897m above sea level, you will also feel the effects of altitude at this height. However, for those who have already completed a high altitude peak such as Kilimanjaro, this trip provides an excellent challenge to try out your first attempt at winter mountaineering in a similar environment.

Although this programme does not require any technical climbing ability or experience, you should be in the best physical condition possible before departure. To prepare we would recommend spending lots of time out in the mountains on uneven and steep terrain, getting your leg muscles used to long, strenuous days. You will be hiking for multiple consecutive days and taking in significant ascents on some of these days, with 30 degree+ slope gradients, so it is important that your body is prepared for this. It is also worth noting that, as with all physically demanding challenges, mental stamina is the most important thing, so make sure to train this too.

Take a look at our [Ecuador Training Guide](#) for tips on how to prepare for your climb.

If you have any questions about your suitability please do not hesitate to contact us.

FOOD & DRINK

In Ecuador, expect to try a whole host of exotic foods and spices as we travel through various different regions. From the traditional foods of toasted corn and stuffed meats, to the more trendy spicy empanadas and citrus-infused cerviche the cuisine here is delicious! The guesthouses and smaller hotels we stay in will provide hearty, generous meals and in the larger cities you will have the choice of local restaurants or hotel favourites. Drinks are not included with dinner, so please make sure you have some cash with you for any drinks you may want. Please also be aware that hotels in small villages and town may not accept card payments.

In the smaller hotels, breakfasts will generally consist of a selection of fruit, bread, eggs, spreads and yoghurt. Packed lunches will be provided by the hotel or guesthouse and will range from rice and beans to sandwiches, fruit and pastries. You will carry your lunch items with you in your daysack. Remember to bring your favourite snacks (cereal or energy bars, dried fruits, chocolate) with you to keep you going through the day.

Water in Ecuador isn't necessarily safe to drink. We provide water bottle refills every morning and evening from a filtered water source, if you think you will need to refill your bottle during the day, we suggest you bring a water purification system. We do not encourage the purchase of single use plastic bottles so we would recommend either a charcoal filter or purification tablets to make your water safe to drink.

ACCOMMODATION

Your full day by day itinerary shows what is included in terms of accommodation and meal basis. All of our pre- and post- climb accommodation is based in Quito. Where your hotel basis is B&B, you can usually purchase snacks or meals at the hotel, which can be paid in US Dollars. When you arrive at the hotel, take a moment to familiarise yourself with the layout and the procedures in the event of a fire, especially your escape routes and fire exits.

On this trip we will stay in a range of accommodation. For some of the nights in the valleys between mountain days we will be staying in family run guesthouses, know locally as *Hosteria*. These are small, simple hotels with basic twin or double rooms. Most of the guesthouses we use have en-suite rooms however, dependant on the location, some have shared bathrooms. In Quito, we will be staying in a comfortable 4* hotel in en-suite rooms on a twin share basis. Single rooms are also available on request for all nights on this trip.

YOUR GUIDE

You will have an English speaking local guide with you for the duration of your trip to Ecuador. They will be joined by qualified, experienced mountain guides for your Cotopaxi summit attempt. On summit night, you will have a 1:2 guide to client ratio.

LUGGAGE

On this trip you have a maximum luggage allowance of 2 x 23kg bags. We recommend using soft 80-100L duffel bags.

Your bags will be transported by vehicle between locations, and you will carry a smaller 30-40L daysack on your treks each day.

HOW DO I GET THERE?

You will need to fly into Mariscal Sucre International Airport (UIO) in Quito on Day 1 of your trip.

For US travellers, there are direct flights to Mariscal Sucre airport with American Airlines, LATAM and Delta from Miami and Atlanta. They also offer services from other main hubs such as New York, San Francisco and Dallas, via Miami. Copa Airlines also offer a service to Quito via Panama from San Francisco and Los Angeles.

From the UK, Delta offer flights from London Heathrow via Atlanta (ATL) and Iberia and British Airways have flights via Madrid (MAD) from all London airports. For UK guests who live further north, KLM have flights via Amsterdam (AMS) from Manchester, Glasgow, Birmingham and other main hubs.

Upon arrival at the airport, once you have exited the Arrivals area, keep an eye out for our driver holding a "KANDOO" sign. Our hotel is a 50 minute drive from the airport.

Travelling Responsibly

Here at Kandoo, we like to support our guests to make their travel more sustainable. As of 2025, we are offsetting the carbon on all of our trips from arrival in destination to dropping you back off at the airport. As we don't include flight travel in our trips these aren't included in our offsetting calculations, so we are providing you with the calculator below for you to do this yourselves.

[eC02 Flights Calculator](#)

PRE-TREK BRIEFING

It is a requirement of joining any of our trips that you attend a pre-trek briefing the evening before the trip begins. This gives our guide team the opportunity to review the plans for the trip with you, make sure you have all the right gear and answer any questions you may have. The briefing in Quito is held the at 6pm the evening before the trip begins in the hotel lobby. Should you arrive on a late flight, you will have your briefing on the morning of Day 2.

BUDGET & CHANGE

The main currency in Ecuador is the **US Dollar** (USD). These can be easily exchanged before travelling. It is very important that US bills be new (no more than 10 years old), crisp and untern. You will also be able to exchange money upon arrival in Quito. Most hotels, banks and exchange bureaus will exchange money for you and our guides are happy to assist you to do this. Please note that whilst you are out of the big cities there won't be anywhere for you to exchange money, so we would recommend doing this before leaving Quito. Credit cards are accepted in most restaurants and shops in the cities however in the smaller towns and villages they will be useless, so please make sure to have some cash on you as well. If you are relying on a credit or debit card for emergency funds, make sure you tell your card issuer that you will be using it abroad, or you may find that it won't work when you really need it.

Depending on how many souvenirs you want to buy, we would suggest a recommended budget of US\$200 to \$250, in addition to your tips.

TIPS

Tipping customs vary all over the world and can be very confusing when travelling to a new country. Tipping is completely voluntary in Ecuador, and at your discretion. In restaurants and bars there is an official 10% service tax. For the team on your climb, the decision on how much to tip should be determined by how well they serve you whilst you are on your adventure.

Tips should be made in US Dollars and we recommend allocating the following per trekker per day for your tips:

Guides - US\$10

Drivers - US\$5
