

10-DAY ADVENTURE

THE INCA TRAIL VIA SALKANTAY

Peru

With over 12 years of experience providing memorable experiences on the ancient Incan trails, you are in safe hands with our experienced Peruvian team. Lead by our knowledgeable manager, Jose, our local staff are our priority and we ensure their welfare needs are aptly met, meaning they can focus their skills on making your trip a fantastic experience. When you trek with Kandoo Adventures, you may also rest in the knowledge that your trip is fully carbon offset as standard.

Located northwest of Cuzco, Nevado de Salkantay, the cordillera's tallest peak rises to 6271 meters above sea level. The name Salkantay means 'Savage Mountain' and it is a strikingly beautiful single peak providing a great focal point for this route. The Salkantay to Machu Picchu trek normally takes 7 days walking and has become popular with trekkers wanting to combine a quieter less trodden route with a visit to the Inca ruins of Machu Picchu.

The trip begins in Cuzco, the ancient capital of the Incan empire. As well as having the opportunity to soak up the local culture, these first two days will also help your body to acclimatise before you begin the trek itself. For the first 4 days you will be surrounded with magnificent scenery and rarely see other groups of trekkers. On the fifth day you join up with the classic Inca Trail at Wayllabamba and continue to Machu Picchu arriving at the Sun Gate.

TRIP HIGHLIGHTS

- Trek through the stunning Salkantay Valley
- Arrive at the Sun Gate in the afternoon
- High guide to client ratio
- Trip fully carbon offset as standard

ITINERARY

DAY 1

ARRIVE IN CUZCO

All trekkers need to organise their own flights to Cuzco Airport (CUZ). From the airport we will arrange an airport transfer for you. That evening you will meet your local Kandoo representative and have a full pre-trek briefing.

Max. altitude: **3400 m**

Accommodation: **Hotel**

DAY 2

ACCLIMATISATION IN CUZCO

The city of Cuzco sits at an altitude of 3400m and is a great place to acclimatise before you start your Salkantay and Inca Trail trek. You'll have plenty of time to explore this charming city and soak up the local atmosphere.

Max. altitude: **3400 m**

Accommodation: **Hotel**

Meals included: **Breakfast**

DAY 3

CUZCO TO SORAYPAMPA TO SALKANTAYPAMPA

We will pick you up early from your hotel for a private transfer to the start of our trek, which will take around 4 hours. Along the way, we will pass through the picturesque towns of Pampa de Anta (Izcuchaca, Zurite, and Ancahuasi). Our journey will take us into the Limatambo Valley, where we will see the ruins of Tarawasi, and then toward Soraypampa, where we will begin our expedition. At Soraypampa, we will complete the arrangements for our trek and meet our arrieros (horsemen). We begin by hiking up to Humantay Lake, the stunning turquoise lake at the base of the Humantay glacier. We then continue to ascend to our campsite at Salkantaypampa. From here we have great views of the peaks of Tukurway (5910m), Humantay (5917m) and Salkantay (6917m).

Hiking time: **5 - 6 hours**

Ascent: **600 m**

Max. altitude: **4000 m**

Accommodation: **Camping**

Meals included:

Breakfast / Lunch / Dinner

DAY 4

SALKANTAYPAMPA TO SISAYPAMPA

Today we leave the main Salkantay trail to skirt around the southern edge of Mt Salkantay. As we gradually ascend to Pampa Japonesa (Japanese Climbers Base Camp) we will be surrounded by snow-capped mountains, deep valleys and glacial lakes. Being so close to the peak of Salkantay, we will be able to hear the glaciers creaking. We will then continue our ascent to Incachiriaska pass (4,900m). This is the highest point on the whole trek and if we are fortunate, we may glimpse the Andean condors that live on the rocky crags nearby. From the pass we will descend to our campsite at Sisaypampa. Due to the altitude, the temperatures can drop below freezing here and there may be snow.

Hiking time: **6 - 7 hours**

Ascent: **880 m**

Max. altitude: **4880 m**

Accommodation: **Camping**

Meals included:

Breakfast / Lunch / Dinner

DAY 5

SISAYPAMPA TO PAUCARCANCHA

After breakfast, we will gently descend to the valley floor. We follow steadily winding paths to Pampacahua, where the valley widens and we find the Inca Canal, where the Inca harnessed the water from Mount Salkantay to irrigate their crops in the valleys below. At the end of the valley we will reach our first archaeological site at Paucarcancha and our campsite for the evening.

Hiking time: **4 - 5 hours**
Descent: **1200 m**
Max. altitude: **4200 m**
Accommodation: **Camping**
Meals included:
Breakfast / Lunch / Dinner

DAY 6

PAUCARCANCHA TO LLULLUCHAPAMPA

After breakfast, we will hike through the valley to the community of Paucarcancha. From here we enter the Cusichaca Valley and trek to Wayllabamba where we will join the Inca Trail. Here we will say goodbye to our arrieros and hello to our porters who will be with us until we reach Machu Picchu. After lunch, we will hike for around 4 to 5 hours to our campsite at Llulluchapampa.

Hiking time: **5 - 6 hours**
Ascent: **800 m**
Max. altitude: **3800 m**
Accommodation: **Camping**
Meals included:
Breakfast / Lunch / Dinner

DAY 7

LLULLUCHAPAMPA TO PHUYUPATAMARCA VIA DEAD WOMAN'S PASS

From Llulluchapampa the path continues less steeply for 2 hours until we reach the highest point of this section, the Warmihuañusca Pass (Dead Woman Pass) at 4200m. This climb is the most difficult part of the Inca Trail. After a short break at the summit, we continue our hike down with a long and steep descent to the river Pacaymayo where we will have lunch. After lunch we ascend again towards the Runkurakay Pass (3900m) from where we will descend until we reach our camping site at Phuyupatamarca.

Hiking time: **8 - 9 hours**
Ascent: **400 m**
Descent: **500 m**
Max. altitude: **4200 m**
Accommodation: **Camping**
Meals included:
Breakfast / Lunch / Dinner

DAY 8

PHUYUPATAMARCA TO AGUAS CALIENTES

Today will bring a noticeable change in climate, flora, and fauna, as you move close to Peru's cloud forest. From Phuyupatamarca we continue to descend, visiting the site of Intipata. We stop for lunch at Winay Wayna, where we say goodbye to our team of porters. In the afternoon we continue on the Inca Trail to finally reach the Sun Gate, the entrance to Machu Picchu. You will not tour the ruins today but will have plenty of time to soak up the view before catching the bus down to Agua Calientes for the overnight stay at a hotel.

Hiking time: **5 - 6 hours**
Descent: **1650 m**
Max. altitude: **3700 m**
Accommodation: **Hotel**
Meals included: **Breakfast**

DAY 9

TOUR OF MACHU PICCHU – TRANSFER TO CUZCO

An early start to take the bus to the Citadel of Machu Picchu where you will have a guided tour for around 2½ to 3 hours. There is also the option of climbing Huayna Picchu, the iconic mountain behind the Machu Picchu, but you will need to book a permit in advance. After the tour of the ruins we will take the bus down to Aguas Calientes where you will catch the train to Ollantaytambo to be met by our driver who will take you back to your hotel in Cuzco.

Max. altitude: **3400 m**

Accommodation: **Hotel**

Meals included: **Breakfast**

DAY 10

DEPART CUZCO

We will collect you from your hotel and transfer you to Cuzco Airport for your departing flight.

Meals included: **Breakfast**

TRIP INFORMATION

DIFFICULTY

The Salkantay and Inca combined trek is **more difficult than the Inca Trail**. You will be trekking at least **6 or 7 hours every day** for six days, over rough mountain trails. The maximum altitude reached is 4880m and you will certainly feel the reduced oxygen levels. You need to have a good level of fitness and be ready for a challenging trek on tough terrain. Please see our [Peru Training Guide](#) for recommendations on how to physically prepare for your adventure and get the most out of your trip.

FOOD & DRINK

Staying well-fed on your trek is absolutely vital, especially when conditions are such that you might not want to eat or drink as much as you should. Because so many trekkers experience a loss of appetite at altitude, our head chef has developed special menu plans that are appealing, healthy, and filled with all the energy you need to make it to Machu Picchu. By default, our meals include fresh fruit and vegetables every day, as well as fresh meat and fish.

BREAKFAST

Breakfast is usually fairly hearty. Of course, you'll also have hot drinks, generally a choice of tea, coffee or hot chocolate. Let your guide know if you are still hungry, or even if you think you could 'pack in a few more bites'. Our cooks always try to provide more food than necessary to ensure everyone gets a good meal.

LUNCH

Lunch is packed for you, to carry in your rucksack.

AFTERNOON TEA

Afternoon Tea is served at the end of the days walking, once you get to camp. In addition to tea and other hot drinks, there are plenty of snacks to help restore some of the energy you've just burned off.

DINNER

Dinners are quite filling. They usually begin with a nice hearty soup, and then a main course with fresh vegetables, and plenty of rice, pasta or potatoes, followed by a yummy dessert.

DRINKING WATER

On the trek, we filter and boil all the water that we give to you for drinking. You may wish to bring purification tablets as an extra precaution but they are not essential. Every morning we will fill up your water bottles or hydration bladder with at least 2 litres of water.

COCA TEA

Coca tea is thought to help relieve the symptoms of altitude sickness. In Cuzco, all the hotels have dried leaves and hot water available throughout the day so you can make your own tea whenever you wish. On the trek we will take coca leaf tea bags for you.

ACCOMMODATION

We use only the very **best high altitude mountain tents**, Eureka K-2 XT, to ensure you stay warm, dry and comfortable on your Salkantay trek. Please bear in mind, these are proper mountain tents, designed to cope with extreme conditions so don't expect to be able to stand up and walk around inside!

Your meals will be taken in a **separate mess tent** where you will be able to sit comfortably, while you relax and chat to your team mates and enjoy the wholesome food that our cook has freshly prepared for you. Inside, you'll be pleased to find a table (of course) and a proper, comfortable chair. With a full 2 metres of headroom, even the tallest climbers will be able to stretch a bit, and move about without hunching over. They are fully waterproof, and regularly withstand the worst weather the Andes has to offer.

The hotels in we use in Peru all have western, flushing toilets. Whilst on the trek the toilet situation will be a little less luxurious. At camp each evening we will set up a **toilet tent**. This is a simple facility that provides a little privacy and comfort whilst on the trail. The toilet tent will contain a portable, sit down toilet. Whilst trekking, if you need to go you will have to find somewhere hidden, off the path and go wild. There's plenty of places to hide in the Peruvian forests!

Our pre- and post-trek accommodation is based in Cuzco, with an additional night in Aguas Calientes after the trek. Where your hotel basis is B&B, you can usually purchase snacks or meals at the hotel, which can be paid in Peruvian Sols, or often in US Dollars. Alternatively, there are plenty of restaurants in Cuzco within walking distance of your hotel.

TRANSPORT

We insist on using a **high standard of vehicle and driver** for all of our transfers. In Peru it is not a legal requirement to have seatbelts fitted in the back of vehicles, and while we try to use vehicles that do have rear seatbelts fitted, this cannot always be guaranteed. If you are unhappy about any aspect of the vehicle or the standard of driving, please speak to the driver or our local office immediately.

LUGGAGE

Bag Weight: 7kg

Kandoo Adventures operates a **strict limit of 7kg** for your main equipment bag. This limit includes your sleeping bag, even if it is rented from us. This is more than sufficient for your needs on the trek. Your bag will be weighed before you leave the hotel to start the trek and if it is overweight you will have to take items out and leave them at the hotel.

HOW DO I GET THERE?

There are several good ways to get to Cuzco from the UK. The first is to fly KLM to Lima with a stopover in Amsterdam. The second is to fly with Air France who offer flights to Lima via Paris, or alternatively you can use Iberia who fly to Lima via Madrid. From Lima you will have to get a domestic flight to Cuzco. Domestic airlines include LATAM, Avianca, Star Peru or Peruvian Air. We recommend flying with LATAM as their planes have the capability to land in the foggy conditions that can affect Cuzco and Lima. Most flights from Europe land in the evening, local time. Most flights for Cuzco don't leave until the morning, so if you don't fancy loitering in the airport all night (which we do not recommend), you'll need an overnight stay in Lima.

Trekkers starting off in North America have a much wider set of options. American Airlines and US Airways both offer flights into Lima, as do several other carriers. In addition to existing security measures at international airports, passengers MAY be required to show that the electronic devices in their hand luggage are charged up. You may therefore be asked to turn on any electronic devices such as mobile phones, tablets, e-books and laptops in front of the security team and/or demonstrate the item's functionality. We recommend that any electronic devices that you are carrying in your hand luggage are fully charged before you travel. If you have any further questions then you should check with your departure airport.

If you are changing airlines or re-checking your luggage at an airport on route, please ensure you leave a minimum of 3 hours between flights. This will account for any delays on arrival, travel time across airports (this can take longer than you think) and time taken to re-check baggage.

Travelling Responsibly

Here at Kandoo, we like to support our guests to make their travel more sustainable. As of 2025, we are offsetting the carbon on all of our trips from arrival in destination to dropping you back off at the airport. As we don't include flight travel in our trips these aren't included in our offsetting calculations, so we are providing you with the calculator below for you to do this yourselves.

[eCO2 Flights Calculator](#)

BUDGET & CHANGE

The **Peruvian Sol** can be purchased in advance, although US Dollars are also widely accepted in larger establishments. If you want to change money when you arrive we can take you to an ATM or foreign exchange bureau. When changing money, request small denominations (10's, 20's and 50's) as the larger notes can be hard to spend. If you withdraw money from an ATM, you are likely to receive 100 sol notes. Peru is generally still a cash society, particularly whilst you are travelling through the smaller villages and towns it is worth having enough cash with you for personal expenses. ATMs will also not be available in these areas so ensure you have exchanged enough money whilst in Cuzco, before leaving on your trek. If you are relying on a credit or debit card for emergency funds, make sure you tell your card issuer that you will be using it abroad, or you may find that it won't work when you really need it.

In Cuzco, the cost of public transport is around 22p (33 cents) for a one-way ticket. If you prefer to travel by taxi, starting price is about £1.10 (US\$1.40) for a 1km ride. When eating out, a meal in a budget restaurant for 2 people is around £5 (US\$7) or a mid range restaurant (for 2 people) will cost around £22 (US\$28). For souvenirs to take home, we recommend budgeting around £40 (US\$50) which should get you plenty of little gifts. If you wish to buy a big blanket or poncho then budgeting a little more would be worthwhile.

Our recommended guidance for spending budget in Peru would be between £80-100 (\$100-125) on top of your tips, to give you ample souvenir and meals out spending money.

TIPS

We realize that tipping may not be a common practice in all countries but for Peru it is a standard practice that all operators support. The decision on how much to tip should be determined by how well the team served you while you were on the trek. Tips are always discretionary and if you are not happy with the service you have received you do not have to pay tips. Tips can be made in US dollars or Peruvian Sols. It is very important that US bills be new (less than 10 years old), crisp and unturned.

Tips per trekker (for entire trip):

Lead guide: \$140

Assistant Guide: \$84

Cook: \$76

Assistant Cook: \$54

Porter (amount per porter): \$18

Tent helper (amount per tent helper): \$18

Horseman (amount per horseman): \$30

Different crew members will be with you for different stages of your trip to Peru:

- Your guide/s will be with you every day in Peru.
- Your cook/s, porters, tent helpers and horsemen will be with you while you are on the trek itself (The number of porters, tent helpers and horsemen will differ depending on group size. You will be given this information three weeks before departure)
- An assistant guide and cook will only be necessary for larger groups (You will be given this information three weeks before departure)

We say goodbye to our crew at the Hidroelectrica station, before we continue to Aguas Calientes and Machu Picchu. Any tips that you wish to give to the cook, porters, tent helpers and horsemen will need to be carried on the trek with you.

FORMALITIES & HEALTH

PASSPORT

Please double check that your passport is valid for 6 months beyond the date of arrival in Peru. We recommend that you take a photocopy of your passport and keep it separate from the original, and this will be useful if the original is lost while you are travelling.

VISA

Most visitors (including nationals from the UK, Europe, USA and Australia) do not require a visa to enter Peru, and will be granted a 183 day stay. You will need at least two blank visa pages in your passport. Certain nationalities not mentioned above must apply for a visa in advance, so check with your local Peruvian Embassy.

Chinese and Indian nationals may enter Peru without a visa if they have a UK, Canada, Australia, Schengen or US visa valid for a minimum of 6 months at the time of entry to Peru.

VACCINATIONS

The standard vaccinations required for Peru are diphtheria, tetanus, typhoid and hepatitis A, but you should always consult your doctor or travel clinic for the most up to date advice. Yellow Fever is recommended for some areas of Peru, which includes the Amazon basin.

INSURANCE

It is your responsibility to ensure that you are fully and adequately insured for the duration of your trip. Please ensure that all activities, excursions and destinations in your itinerary are included in your travel insurance policy, in addition to your regular cover for cancellation and medical expenses. Most of our treks in Peru do not exceed 4700m with the exception of the Ausangate Trek which will reach 5200m. If you are only doing the Short Inca trail your trek will not exceed 3500m. Please ensure that your insurance policy covers you for trekking at these altitudes.

We ask that you keep a copy of your policy summary (containing policy number and the emergency contact number for your insurer) in your day sack at all times, so that we can access this information should we need to contact the insurer on your behalf.

HEALTH

Altitude Sickness

Altitude sickness, called soroche in Peru and also known as Acute Mountain Sickness (AMS) or hypobaropathy, is an illness caused by exposure to low air pressure, especially low partial pressure of oxygen, which many climbers experience at high altitudes. AMS is caused by exerting yourself at high altitudes, especially if you have not been properly acclimatised. It is most common at altitudes above 2400 metres. Our routes have been designed to aid your acclimatisation wherever possible, but the following will also help your body adjust:

Slow and steady. You need to keep your respiration rate low enough to maintain a normal conversation. If you are panting or breathing hard, you must slow down. There is no pressure on you to keep up with other members of your group.

Drink much more water than you think you need. Proper hydration helps acclimatisation dramatically. You need to drink at least three litres each day.

Diamox

There has been a lot of research on Diamox that shows that it has been reasonably well proven to be helpful in avoiding AMS by speeding up the acclimatisation process. In the UK it is a prescription drug which must be prescribed by a doctor, but some doctors are reluctant to prescribe it. The concern is that by taking Diamox, people believe that they are immune from AMS and can ignore the symptoms. In reality, although Diamox can help prevent the symptoms, should symptoms still develop it means that you are not acclimatising and you have to take notice. Diamox is taken before you start trekking to prevent altitude sickness, not once you are on the mountain and symptoms have developed.

Malaria

There is no risk of malaria in Cuzco or on the Inca Trail due to the altitude. However, there is a risk of malaria in rural areas of Peru below 2,000m. This would include Tambopata National Park, so if you are planning an extension to the Amazon Rainforest, you need to plan anti-malarial medication for this part of your trip. In addition to taking medication, we would recommend you take every precaution to prevent mosquito bites by wearing long-sleeved trousers and shirts at dusk and dawn when the mosquitos are active, and by using a DEET based mosquito repellent. If you are planning on taking Diamox, please let your doctor know, as daily malaria tablets taken alongside Diamox can cause an upset stomach and nausea. A weekly malaria tablet may be a better option, but you would need to discuss this with your doctor.

Dehydration

You can easily become dehydrated at high altitudes. The lower air pressure forces you to breathe more quickly and deeply, and you lose a lot of water through your lungs. You will also be exerting yourself, and sweating, and may even suffer from diarrhoea. As a result, you will have to drink much more water than you normally would and you should drink at least 3 litres of fluids every day while climbing. Even when you do not feel thirsty you have to drink this amount as a minimum preferably more. Stay on the look-out for signs of dehydration in yourself and your fellow climbers. The most common symptoms include thirst, dry lips, nose or mouth, headache and feeling fatigued or lethargic.

EQUIPMENT & CLOTHING

EQUIPMENT SUPPLIED BY KANDOO ADVENTURES

High quality mess and sleeping tents with a comfortable insulated sleeping mat

RENTAL GEAR

If you've decided to rent gear, then below is a list of equipment available. Just let our team know what you'd like to hire at your Pre-Trek Briefing.

All payments are made locally in US Dollars (cash only):

North Face 0° Sleeping Bags \$15 per trek

Trekking Poles \$10 per trek

Duffle Bag \$5 per trek

All items must be packed in your main equipment bag. They should not be attached to the outside, as we are not responsible if items fall off when the bags are being carried on the trek. The sleeping bags weigh approximately 2kg each

CLOTHING TO BRING

HEADGEAR

- Warm beanie style hat – knitted or fleece
- Neck gaiter or scarf - comes in useful for keeping dust out and can double as a warm layer for your neck / face!
- Sun hat – preferably wide-brimmed for protection
- Sunglasses – high UV protection
- Headlamp (plus extra batteries)

UPPER BODY

- Thermal or fleece base layer (x1)
- Long sleeve shirt/tshirt – light or medium weight, moisture wicking (x 1)
- Short sleeved shirt/tshirt – lightweight, moisture wicking (x2)
- Fleece or soft shell jacket (x1)
- Insulated jacket – down or primaloft
- Lightweight water/windproof hard shell outer jacket
- Poncho – a cheap plastic poncho is the best way to cope with a sudden downpour
- Gloves – lightweight, fleece or quick drying fabric

LEGS

- Trekking shorts (x1)
- Trekking trousers – light or medium weight (x1) – convertible trousers work well
- Waterproof hard shell trousers – ski pants work fine

FEET

- Trekking boots – mid weight with good ankle support
- Training shoe or similar – to wear around camp
- Mid-weight trekking socks (x3 pairs)
- Breathable, high-wicking liner socks (x2 pairs)

EQUIPMENT TO BRING

- Small Rucksack or Daypack (25-30 litres) to carry water and personal items
- Lightweight duffle bag (approx 50 litres) – max weight when full should be 7kg. This weight restriction includes your sleeping bag, whether you brought one with you or rented one from us. Your duffle will be carried by a mule
- Sleeping bag (3 season or 0 Deg C) and compression sack
- Trekking poles
- Water bottle or hydration bag – must be able to carry 1.5-2L of water

OTHER ACCESSORIES

- Sunscreen high SPF
- Toiletries, **including toilet paper**, wet wipes and hand sanitiser – please carry all rubbish back off the trek
- Camera and spare batteries
- Personal medication and first aid kit
- Insect repellent – ideally contains DEET
- Personal snacks and energy bars – dried fruit and nuts are also a good source of energy
- Isotonic drink powder / energy drink powder to mix in with your water. This improves flavour and helps replace electrolytes
- Microfibre towel for wiping hands and face each day
- Ear plugs, if you are a light sleeper
- Pee bottle, if you prefer not leaving the tent at night
- Dry bag (only required if your main duffle bag is not waterproof)

HOW TO BOOK THIS TRIP

1 CHOOSE YOUR DATE AND CHECK AVAILABILITY

A full list of available dates can be found on our website.

2 CONTACT US

Contact us by phone, email or through our website. We will answer any questions you may have and send you a personalized itinerary and quote.

3 COMPLETE BOOKING AND PAYMENT

When you are ready to book, we will send you a link to our online booking forms and participation agreements. We accept all major credit and debit cards and require a low 20% deposit to secure your place.
